

# AMFUS COMPREHENSIVE MODEL SCHOOL

## *Knowledge is Light*

### **ADMISSION REQUIREMENTS**

#### **1. Certificate of Birth**

Applicants are required to present a valid birth certificate as proof of age. This helps the school confirm that the student meets the age requirement for admission into the appropriate class. It also serves as an official record for identification and administrative purposes.

#### **2. Previous School Results (Transfer Students)**

Students transferring from another school must provide their previous academic results, report cards, or testimonials. These documents help the school assess the applicant's academic background, learning progress, and suitability for the intended class or program.

#### **3. State of Origin (Indigene Certificate)**

A state of origin or indigene certificate is required to verify the applicant's place of origin. This document is often used for statistical purposes, scholarship consideration, and to ensure proper representation of all regions within the school community.

#### **4. Tribe**

Indicating one's tribe helps the school promote cultural understanding and diversity among students. It also assists in organizing cultural or language-based activities that foster unity and respect for different ethnic backgrounds.

#### **5. Medical Report**

Every applicant must submit a recent medical report from a recognized hospital. This ensures that the school is aware of the student's health condition and can provide appropriate care when needed. It also helps maintain a safe and healthy environment for all students.

#### **6. Religion**

Applicants should state their religion to enable the school to make suitable arrangements for moral and religious instruction, worship activities, and observance of religious holidays. This ensures respect for each student's faith and beliefs.

### **POST-ADMISSION INFORMATION**

## **Books and Uniforms**

The list of approved textbooks and school uniforms will be issued only after all admission processes have been successfully completed.

## **Resumption Procedure**

On the day of resumption, every new student must present their class allocation slip at the designated campus to confirm their class and complete registration before joining academic activities.
